Pier 15 at 78 South Street has transformed into Winter Wonderland at Watermark, a festive destination inspired by *The Santa Clauses*, the upcoming Disney series based on the popular *The Santa Clause* films starring Tim Allen. Tickets, which include entry and a complimentary cup of hot cocoa, start at $20 per person and can be purchased right here.

There will be tons to do on-site during the 90-minute-long experience, starting with the chance to quite literally walk through Santa's house, where you'll get to sit in the figure's cozy armchair by the fireplace in his very own living room. Don't forget to snap some photos, of course.

The experience runs through January 15.
