## The Best Rooftop and Outdoor Bars in New York City

New Yorkers spend plenty of time indoors, so when the weather finally gets al fresco worthy, the denizens of the Big Apple make a beeline for a breath of fresh air, preferably in the form of a luxe rooftop or outdoor bar. Situated atop high rises and hotels, rooftop bars are a warm weather staple of the New York social scene—a way to make the most of the city's glittering views and all-too-brief perfect weather.

### Ophelia

For 360-degree Manhattan views in a sophisticated setting, look no further than this bar at the top of the Beekman Tower. With elevated seasonal options like a martini with palo santo cordial, a rum-based Old Fashioned, or a sherry and single-malt iteration of a cobbler with peach and macadamia, this is the place to go to feel like New York royalty.
