# OUR STORY

The name Sandy Springs originated from our 19th century farm, which is located along Sandy Springs Rd. in Minerva, Oh. The Sandy Spring was a natural spring that fed into the old farmhouse where we currently reside. Our daughter is the 6th generation to live here. There are fond memories of visiting my great grandmother as a child and dipping an old tin cup into the large barrel of water where the spring entered the house.

Original plans for the brewery were for it to be located in the farm's old red T-barn that also dated back the 1800's. In fact, we had an inspection in 2013 to determine its structural integrity with positive recommendations that the barn would stand for another 75 years. Sadly, 4 days later after this inspection, it was struck by lightning and burned to the ground. Fortunately, we were able to salvage several of the old and now fire scarred barn beams and floor joists. This wood is featured throughout our taproom in downtown Minerva. The tree in our logo symbolizes the old oak tree that stands by itself towering in the center of our farm. We often refer to it as the "Tree of life". It represents the heritage and history of the farm and now 6 generations of family who have come to call it home.

Although it was terribly sad to see the old barn burn, we are incredibly excited for our location of Sandy Springs Brewing Company at the center of downtown Minerva and look forward to continue being a big part of the growing community. We feature American and European style ales and lagers with an atmosphere that promotes a community and family-centered place to meet, spend great times, and create awesome memories. We look forward to seeing you in our taproom to enjoy with us our local hand-crafted beer.

*Andy, Amanda, & Lola Conrad*
