PLEASE READ:

Being that we do not offer drink packages, we created this estimation break down to help you budget for cocktails. When you reach the estimated total, you will be approached by your server and asked if you would like to keep the bar open, move to a cash bar, or discontinue drink service. You may also request that this is a firm estimation, and the servers will discontinue service or move to cash bar, after the limit is reached.

The by the hour break down will help you to get a more accurate estimate, depending on how long you want your guests drinking for.

If you do not reach the estimated amount, you will not be charged the full estimate. You will only be charged for what is consumed.
