yogurt crumble, wild cilantro

CHOCOLATE MILLE-FEUILLE

Initial _____

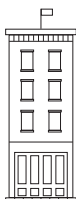

mint ice cream, chocolate namelaka

OR

CONCORD GRAPE PAVLOVA

Initial _____

ginger cremeux, concord-lychee sorbet

The Story

Our address, 1 White Street, is a footnote in the decades-long love story of one of rock music's most legendary couples. In the 1970's, it was the subject of a press conference in which a British musician, facing immigration issues, announced the creation of a conceptual country—one devoid of land or boundaries, and welcome to everyone.

This idea, of a place that is open to and accepting of all, embodies the essence of hospitality. And though the country itself was merely a concept, its founding premise lives on.

The Ingredients

Our approach to cooking is reflective of the food we want to eat every day, and informed by our own unique experiences. The energy of New York, the quiet of the up-state farm, the perspective, techniques and flavors discovered through travel—even the freedom of a conceptual country: it's all represented here, expressed through the freshest ingredients possible.

The Farm

Cooking in Paris and discovering the produce and marketplaces in France changed Chef Austin Johnson's perception of what ingredients can be. When he returned to New York and began making plans for One White Street, he sought the same standard of beautiful, fresh and thoughtfully raised vegetables.
