

ALLERGEN MENU

At Smoky Hearth, we're committed to making the dining experience of every guest, including our guests with food allergies, an exceptional one. That's why we are proud to provide this information to help you make an informed food selection.

The information below details which menu items contain the most common allergens and intolerances, based on the information provided by our suppliers and manufacturers. We work to keep this information as up to date as possible, and suggest you check our allergen information each time you dine with us. Please note this information does not include which items may have been made in a facility with the allergen.

Because all our dishes are prepared-to-order, our normal kitchen operations may involve shared cooking and preparation areas. Therefore, we cannot guarantee that any menu item can be completely free of allergens. Items cooked on our grill or in our fryer present a special risk for cross-contamination, so we've clearly identified those for you.

All items are represented below as served per menu.

Before placing your order please inform your server if a person in your party has a food allergy.

	PREPARATION		ALLERGENS							
	FRIED	GRILLED	DAIRY	EGG	FISH	PEANUT	SHELLFISH	TREE NUT	WHEAT	SOY
