

We waited as long as we could, but given the current circumstances, we have decided to move forward with our own plan. As a result, we believe the responsible thing for us to do is suspend our dining room service and shift our focus to our takeout and curbside service. The safety of our friends, employees, and families takes precedence over all other considerations.

To facilitate the reduction in staff and hours, we have streamlined our menu for takeout orders and are also working to create daily "Picnic Baskets" to keep your bellies full during this time of self-imposed isolation. We will also debut our previously secret Kids Menu!

Our kitchen will open at 3pm daily, but we will be manning the each day starting at noon for takeout orders and will be offering curbside pickup. As we put together our plans for our daily "Picnic Baskets" we will post that online and on our web page with ordering instructions. You'll have some options to throw in a bottle of wine and, of course, we have dessert ready for you to pickup as always.

Thank you for continued patronage, your support, and your understanding. We look forward to returning to business as usual once we make it through all of this, and hope to see all of your smiling faces in our dining room again soon.

Stay safe, healthy, and happy  
The Buckley Family
