PHOENICIA
DINER

Built in 1962 and moved to the Catskills in the early 80s, the Phoenicia Diner has a long history of serving customers who are drawn to the Catskills' natural beauty. The prior owners nurtured the Diner and its customers for nearly 30 years.

Now, owner, Mike Cioffi, and his staff happily continue that tradition. Along with friendly service, the Diner offers classic dishes, sometimes with a twist, using seasonal and fresh ingredients that are sourced largely from Catskill and Hudson Valley Farms

Catskill Mountain bluestone, named for its distinctive blue color, was used in building the Brooklyn Bridge, Empire State Building, and the Statue of Liberty.
www.catskillcenter.org

In 1851, a Catskill farmer named Mark Carr used two ox sleds to bring his evergreens to New York City. He set up the first retail Christmas tree lot and sold every one. Less than 50 years later, 1 in 5 families displayed Christmas trees in their homes at the holidays.

PHO**STEAK AND EGGS (12)**
