Sake for Natural Wine Lovers

Did you know that *junmai* sake is only made with four simple ingredients? Water, Rice, Yeast, and Koji. No added industrial preservatives and no hangover (just kidding, responsible drinking is still required).

Our sake program spans a rainbow spectrum of flavors, aromas, textures, and colors. Sipping through this menu will take you from Nara to Bushwick, from the 15th century to the 21st, from autumnal earthy hiyaoroshi to springtime juicy namazake. There is a wide and wonderful world of sake and we're here to help you explore.

You can continue your journey by visiting our bottle shop Bin Bin Sake just around the corner or join the club at binbinsake.com

kanpai!

Bin Bin Jizake #001

12 / 30 / 80 (750mL)

junmai

Brooklyn Kura, Sunset Park

Our very first house sake! Dry, crisp, fruity brew with lively acidity

TRADITIONAL STARTERS

The traditional brewing methods of yamahai, kimoto, and bodaimoto are the heart and soul of our menu. Live cultures of microbes provide layers of flavor and a pinch of acidity. Although the origins of these techniques span nearly five centuries, their deliciousness is timeless.

GINJO, FRAGRANT & FLORAL BREWS

Careful polishing of sake rice trims back outer layers and reveals the starchy heart of the grain. Heartier flavors and bolder textures make way for the beautiful fragrances and vividly fruity aromas that are expressed when brewing with specialized yeasts. These techniques, along with other innovations, produce a range of styles from refined elegance to opulent juiciness.

JUNMAI & MORE CRAFT SAKE

The greatest diversity of sake can be found among the versatile junmai category. From sweet to dry, fruity to savory, a huge range of expressions can be created within its broad classification requirements. Also not to miss are honjozo and other added-alcohol sake. These are premium grades that have a fifth ingredient added: jozo, brewer's distilled alcohol. Used intentionally, like a chef adding a pinch of salt to enhance a dish, a sparing amount of additional alcohol can help brewers bring out more flavor and aroma.

NIGORI & DOBUROKU

The most visually recognizable category of sake is Nigori, which means cloudy. These brews are coarsely filtered and bottled with some residual rice to provide texture and flavor. Many shades of Nigori exist and also span a spectrum of sweet to dry. Truly unfiltered sake is called Doburoku, a rustic homebrew speciality that is trending amongst young craft brewers.

		cup	/	carafe	/	bottle

AGED SAKÉ

Aged sake, also known as koshu or jukusei-shu, can take on additional layers of complexity, becoming richer tasting, and progress in color from light hues of gold to dark amber. The gradual transformation of aging sake results in a beverage that can exist in an entirely different niche of its own that may be reminiscent of some sherry and port wines.

	cup	/	carafe	/	bottle

	yamahai junmai genshu koshu Kaetsu Shuzo, Niigata					

FLAVORS, FRUIT & OTHER COLORS

There is a sake for every moment. Bright and zesty yuzushu is perfect for getting loose at brunch (or breakfast!). Ending a meal with the tart acidity and ripe sweetness of umeshu feels classy in a Japanese grandmotherly way. Don't miss some of the other modern twists like infusions with hops or green tea.

		cup	/	carafe	/	bottle

S H O C H U

The most widely consumed alcoholic beverage in all of Japan - shōchū (not to be confused with Korean *soju*) is a koji-fermented, distilled liquor. One might consider shochu as something like a distilled sake, but instead of just rice, shochu can be made from one of over 50 different types of permitted grains, vegetables, or even herbs. Most popularly, shochu is made from koji-fermented barley (*mugi*), rice (*kome*), and sweet potato (*imo*) within the prefectures of Kagoshima, Fukuoka, Saga, Kumamoto, and Miyazaki – all located on Japan’s southern island of Kyushu.

Our program focuses on *honkaku* (or “authentic”) shochu, which follows the strict regulations of single pot distillation proofed down to anywhere between 25%-45% ABV with only Japanese water and zero additives. These factors create one of the most flavorsome, terroir-driven, and diverse spirits categories in the world!

Traditionally, shochu is enjoyed with chilled water (*Mizuwari*), topped with carbonated water (*Soda-wari*), poured into warm water (*Oyuwari*), or even as a straight serve. However, if cocktails are your go-to, let our skilled bartenders craft you a refreshing *Chu-Hai* with fresh grapefruit, hojicha tea, and soda for an exciting introduction to the category!

J A P A N E S E W H I S K Y

As old as shochu distillation is in Japan, whisky distillation is equally new. Prior to the year 1868, Japan's borders were closed to most diplomacy and trade, but with the establishment of the Meiji period of Japanese history, cultural cross-pollination and trade flourished between the West and the once-isolated nation - including that of beverage.

The first Japanese whisky distillery - Yamazaki - was founded in 1923 by the entrepreneur Shinjiro Torii and his partner, the chemist Masataka Taketsuru. When Taketsuru left the partnership to found what is now Nikka, the seeds of Japanese whisky culture were sowed. From those two individuals comes everything after.

Last year alone, more whisky licenses were issued in Japan than had ever been issued in the history of Japanese whisky to that point. Creativity and craftsmanship within the vibrant category are unparalleled, and will only grow with each passing year. Here you will find both an introduction for the curious newcomer as well as a wealth of new experiences for a seasoned whisky pro.
