TEQUILA

Tequila was first produced in the 16th century near the location of the city of tequila, which was not officially established until 1666. The aztec people had previously made a fermented beverage from the agave plant, long before the spanish arrived in 1521. When the spanish conquistadors ran out of their own brandy, they began to distill agave to produce one of north america's first indigenous distilled spirits.

RUM

The first distillation of rum took place on the sugarcane plantations of the caribbean in the 17th century. Plantation slaves first discovered molasses, a byproduct of the sugar refining process, could be fermented into alcohol later, distillation of these alcoholic byproducts concentrated the alcohol and removed impurities, producing the first true rums.

CANADIAN WHISKEY

Several hundred years ago, when Canadian distillers began adding small amounts of highly-flavoured rye grain to their mashes people began demanding this new rye- flavoured whisky, referring to it simply as “rye”.

CROWN ROYAL18

IRISH WHISKEY

Irish whiskey was one of the earliest distilled drinks in Europe, arising around the 12th century. It is believed that Irish monks brought the technique of distilling perfumes back to Ireland from their travels to the Mediterranean countries around 1000 A.D.

JAMESON19

JAPANESE WHISKEY

The production of Japanese whisky began as a conscious effort to recreate the style of Scotch Whisky. Pioneers like Taketsuru carefully studied the process of making Scotch Whisky, and went to great lengths in an attempt to recreate that process in Japan.

In 1985, Hombu Brewing, a Japanese “shochu” maker from Kagoshima Prefecture on the island of Kyushu, founded the Shinshu Distillery in Miyata Village in Nagano Prefecture as a base for the production of whisky and brandy.

SCOTTISH WHISKY

Scotch whisky evolved from a Scottish drink called uisge beatha, which means “water of life”. The earliest record of distillation in Scotland occurred as long ago as 1494, as documented in the Exchequer rolls, which were records of royal income and expenditure.

HIGHLANDS & ISLANDS

Fruitcake and oak flirt with heather and smoke in highland whiskies. Wild seas and impenetrable moorland dominate the landscape, creating a breeding ground for powerful peaty drams, whilst still leaving room for floral, silky elegance the versatility of the islands accommodates both feathery citrus flavours and smoking peaty noses.
