

## Our Full Guide to the Holiday Season in NYC

There's something so magical about the holiday season and getting to experience it in NYC is just on another level. We are so lucky to have such amazing things to do and see year round here but if you have yet to experience the holidays here, you must plan a trip! For locals looking for magical experiences this month or anyone in town seeking a full guide, this is everything we are looking forward to in the big apple this month.

### Santa's Winter Wonderland at Watermark

New York City's most magical holiday attraction is back for at the Seaport District's Watermark on Pier 15. In partnership with Bucket Listers, this over the top winter wonderland will feature complimentary holiday cocktails, passed hors d'oeuvres like spiked hot chocolate and toasted s'mores, plus a special meet and greet with Santa. Stroll through candy cane filled halls, snap photos in Santa's Game Room with views of the Brooklyn skyline, and cozy up inside heated glass houses for the ultimate festive escape. Perfect to bring your friends to this season!
