47 Most Anticipated NYC Spring Restaurant Openings of 2017

From new concepts from celebrity chefs like Scott Conant and José Andrés to hotly anticipated fast-casual spots, spring 2017 is bringing along a slew of new restaurants to check out. Here are the ones that have us most excited.

The Campbell

Projected opening: May

The Gerber Group will reopen the iconic New York institution, the Campbell, set in Grand Central Terminal. Thoughtfully restored to its original grandeur, the restoration will maintain the integrity of the property's historic architecture and 13th century Florentine-inspired design while introducing contemporary design elements. Expect classic and modern cocktails, that highlight fresh ingredients, wines and locally brewed craft beers, along with a menu of elevated bar fare and lunch specialties.
