

TEAM MEMBER

WHO WE ARE:

Alchemy isn't your typical juice bar, and we like it that way. Inspired by making health and wellness more accessible, Alchemy prides itself on approachability. And not taking anything too seriously.

We view food environmentally, socially, and nutritionally and are committed to creating menus that reflect that. We recognize that food and nutrition issues are systemic and that if we can make even a small impact on the health and happiness of our nation, then that's a job well done. Our balanced approach to living a full life is evident in our equally progressive, fun, and wholesome menu.

We use Alchemy as a platform to bring people together and catalyze social change. Because food is meant to be shared. And what's life without donuts?

ARE YOU...

- excited about building the Alchemy brand and growing alongside us?
- passionate about your community and helping grow a family-owned business?
- interested in position with ample growth opportunity?
- a self-starting people person?
- passionate about food, health and wellness?

WHAT YOU'LL DO:
