CUSTOM CONSUMPTION BAR TAB

**For total flexibility, our Custom Consumption Bar Tab allows you to provide
an open-bar experience tailored to your specific preferences.**

The host may define the duration of service and set specific limits on spirit tiers (Rail or Premium) and beverage categories.
All drinks are tracked individually and billed to the final tab based on actual consumption.
This option is ideal for hosts looking for a fully customized beverage experience.
Hosts may establish a pre-authorized maximum for Custom Consumption Bar Tabs. Once the tab reaches the specified limit,
service will automatically transition to a Cash Bar or require the host's authorization to extend.
