"ENDANGERED SPECIES"

Our endangered species list highlights some of the special wines that you will find within our list. These wines are highly allocated in the NJ market or are end of an old vintage. This is likely the last time you will see this vintage offered at Rat's. Take advantage now while they are still available.

Winery Highlight

Sea Smoke was founded in 1999 with the purchase of a rare and magical property in the Sta. Rita Hills AVA north of Santa Barbara that had long been coveted by local winemakers and growers for its clear potential as a site capable of producing extraordinary Pinot Noir & Chardonnay. This incredible piece of land would become Sea Smoke's estate vineyards and in 2001 our first vintage was released to wide acclaim, instantly cementing Sea Smoke's status as one of the top producers of Pinot Noir in California. In the pursuit of coaxing the best possible expressions of Pinot Noir from our estate vineyard, we began farming organically in 2005 while also applying the principles of biodynamic farming to a portion of the estate.

Over the next ten years, we employed biodynamic farming practices across our estate vineyards and today we continue to farm organically and biodynamically while pushing into the realm of regenerative agriculture.
