

# ALMA COCINA

Alma Cocina is a refreshing approach to modern Mexican cuisine where bright, fresh ingredients and traditional, regional influences come together to create something new and dynamic. With a one-of-a-kind menu of carefully curated tequila selections, we offer Latin-influenced cocktails that reach far beyond the common margarita.

Alma Cocina is perfect for business entertaining and leisure dining, drawing on the rich textures and colors of Mexico and resting on a foundation of reclaimed woods, steel plate and concrete block, tooled leather inserts in reclaimed oak bar tops and custom-fired terracotta tile. The kitchen's half walls and window create a seamless experience between culinary activity and dining.
