

CIAO

We're pretty jazzed you're here.

You've got everything we have in the way of beverages in front of you: cocktails, non-alcoholic options, beers, and of course wines—we probably missed a few that are also in here.

While we don't have everything, we're confident we've got something you'll love—because this list is curated with only things we love! We've done our best to lay things out in a way that makes it easy to decipher and make choices, but we'd also really like to chat with you and introduce you some of our favorites.

Our wine list is mostly Italian, but with some neighboring regions and domestic producers we love. Our focus is on smaller producers, winemakers who are still small enough that they have personal relationships with the people who sell us their bottles, and folks who want to make wine but also take care of the earth. You'll notice some wineries are so special to us that their wines show up multiple times on our menu. These wines are listed in the regular list, but they're also highlighted with more information—cause we're big nerds—on our feature pages that are after the regular menu.

Please peruse! Enjoy! Ask questions! Don't miss the Amari page—there's over 50! We hope you discover something new that you'll be obsessed with, and we hope that this list is as fun for you as it was for us to put together.

Please notify your server of any allergies when ordering.

The Pelizzatti Perego family refounded this estate in 1984 after tragedy split up their holding that dated back to 1860. Here, Nebbiolo is called Chiavennasca and has uniquely adapted to this high-altitude climate. Like drinking Nebbiolo while skiing!

Spoletto, Umbria

The Mattioli family has been in this corner of Umbria since the 1100s and they make a teeny tiny amount of wine—about 8000 bottles—in addition to growing olives, ancient grains, and curing meats. Now helmed by Annalisa Mattioli, we’ve been lucky to work with these wines since opening Bar Mezzana, and we’re proud to highlight them; they are rustic and refined at the same time, and they are a beautiful reflection of this stunning region.

Passopisciaro, Mt. Etna, Sicily
Frank Cornelissen is a pioneer of natural wine as well as of the terroir of Mt. Etna. People have become genuinely obsessed—he even collabed on a wine with Patagonia. His minimal intervention approach emphasizes biodiversity with deep respect for his wines expressing the land they're from. These bottles are a raw and unfiltered reflection of the energy and power of Etna.

Corno di Rosazzo, Friuli

I Clivi has been special to Bar Mezzana since our beginning. We have a long-standing relationship with their importer, Giannoni Selections. These wines are famed for their low yields, steep terrain, and old vines. Winemaker Mario Zanusso took over from his father, Ferdinando, and he continues to shepherd wines of precision that showcase their highly reputed terroir.

Willamette Valley, Oregon
Sometimes you meet a winemaker and the vibes are so good that you just know the wines will kill—Kelley is that person. Equal parts mystic and scientist, she has been producing her own labels since 2007. Kelley listens to her vineyards and lets them tell her what each wine wants to be. These are some of the most elegant and graceful wines made in the US.

Cugnoli, Abruzzo

Cristiana Tiberio is making some of the most exciting wines in Abruzzo along with her brother Antonio who handles the growing. They're deeply passionate about planting only vines that are propagated here and adapted to their land—massal selection. Their wines are pristine due to their insistence on free run juice. Everything is a tenuous balance of crystalline and textural qualities. You can taste Cristiana's intense passion for Abruzzo in these wines, particularly in the single vineyard bottlings which are all richly aromatic and elegant.
