WET HOPPED AMERICAN SUMMER: SUMMER BEERS

Summer beer need not mean flavorless suds! Explore everything that summer beers have to offer! Light lagers, funky farmhouse ales, refreshing sours, and snappy IPAs. Join Kevin Brooks and let's cool off from the heat.

HOPS

5/15, 6/12, 7/23

Take a journey into the world of hops. We will explore what hop varieties taste like from all regions of the world: European "noble" hops to the new popular American varieties. We will look at the influences new hops have had on the styles of IPAs being brewed, and take a look at how modern brewing techniques have enhanced the hop flavors everyone craves today. Beers may include examples from local American producers and some old forgotten favorites as well.
