# SOLOMON'S STORY

סיפור שלמה  
ソロモンの物語  
LA HISTORIA DE SALOMON

We're named after Russ Solomon, founder of the coolest and arguably most successful company ever to launch in Sacramento, Tower Records. Since 1960 and continuing for 40 years, the music stores were hang outs for professional musicians and music lovers alike in all major cities including San Francisco, Los Angeles, New York and around the world such as Argentina, Israel, Japan, Mexico, Singapore, Taiwan and Thailand. Our food represents the heart of a New York Jewish delicatessen with a touch of soul through international street food to create a menu as diverse as the record selection at Tower. Our bagels and buns are baked in-house with organic flour from central milling, we fry only in non-gmo oil and our salmon and chicken are all sustainably sourced. Founded and led by women, Solomon's, just like Tower Records, is a community gathering place where culture and music are celebrated and everyone is welcome.
