

# SHOCHU SUNDAY

## WHAT IS SHOCHU??

Shochu is an aromatic, clear distilled Japanese spirit that uses koji for fermentation. Koji creates umami - it's a crucial fermentation starter for Japanese staples like soy sauce, miso, and sake! The flavor profile varies wildly depending on what it's made from. Let us help you find your favorite!

# 焼酎

## CHUHAI ETC...

SHIO KOJI LEMON 塩麴レモン	16
