Building History

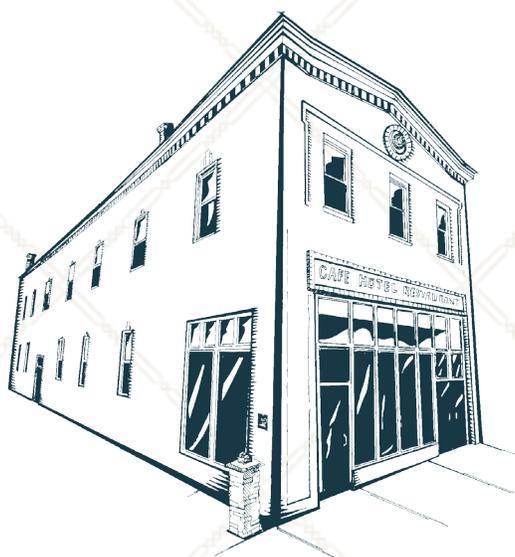

In an area then known as the town of Saint Anthony Falls, the Alma building was originally built as a fire house in 1905. From 1920–1956 the building was used to manufacture hydraulics and wooden speed boats including the original prototype for WWII PT-Boats. From 1956–1992 a frozen food company, Blue Ribbon Foods, occupied the property followed by a vacant period as the neighborhood went through some tough times. In 1999, Restaurant Alma joined a coffee shop, a small advertising firm and a toy action figure sculpture studio as co-tenants. An opportunity to purchase the property came in 2013 and renovations began in 2016 to add the hotel and a second kitchen/bakery. Alma Cafe, Hotel & Restaurant opened in November 2016.
