our land

“Land of Plenty” is what Napa meant to the region’s original inhabitants, the Wappo Indians. This valley, snug between the Mayacamas Mountain Range to the west and the Vaca Mountain Range to the east, claims some of the most historically rich agricultural land in the world. Bridging the gap between the past and the present, the wines of Napa Valley carry the deeply-rooted traditions of this land along with evolving innovations of the modern “cult” wine era.

Napa Valley is only 30 miles long and 5 miles wide, but the terrain is as rich and diverse as the culture of the people who tend to it. The San Pablo Bay keeps its southern edge cool and windy, blanketing the vineyards with thick fog. The fog still seeps north into the valley, but here temperatures peak as the grapes bathe in ample sunshine. High mountain peaks of both the Mayacamas and the Vaca ranges escape the fog, facing instead the severe high-elevation climate on rugged terrain. It is because of these climatic differences that the Napa Valley holds 16 distinctive AVA designations. With over 43,000 acres under vine, the Napa Valley is certainly still the Land of Plenty.
