What to expect when dining outside at Arturo’s

- Tables are spaced 6 feet apart, you are seated under a tent.
- Tables cannot seat more than 6 people
- 1 hour and 30 minute time limit
- Please use your phone to view our menu. We are not using our regular menu books to limit contact surfaces. Simply visit our website [www.arturosristorante.com](http://www.arturosristorante.com) and click menus. You have access to all of our menus right in your hand. The nightly specials are listed there too.
- Guests do not need to wear a mask while seated
- Guests must wear a mask while approaching the host desk and when entering the building to use the restroom. Please let us know if you have a medical condition that prevents you from wearing a mask.
- The restrooms are located behind the bar inside Arturo’s. Please use the middle door to enter the building. There are signs on the door. Please wear a mask.
- Walk-ins will be extremely limited and nearly impossible to seat. The best way to join us for outdoor dining is to make a reservation on our website by clicking the reservations tab. This will show you our live up to minute availability. We recommend making reservations at least one week in advance if you want to eat on Friday or Saturday between 6-8pm. If you show up early for a reservation we will most likely not be able to seat you early.
- It is illegal for us to serve you alcohol while you are waiting for your table, eating and drinking can only take place while seated under the tent.
- Please expect longer wait times while we adjust to this new format. The distance from the kitchen to the tent is about 300 feet.
