

RECIPE CARD

RECIPE NAME

Fish Tacos

ABOUT THIS RECIPE

Making fish tacos is a simple and delicious way to feed your family or friends.

This recipe serves 5-8 people and will satisfy just about everyone. This can be prepared on the grill or in a skillet.

INGREDIENTS

- Two pounds of halibut, snapper, or another whitefish of your liking for this recipe
- 1/4 cup of olive oil
- Seasonings and toppings of your choice
- Tortillas

PROCEDURE

1. Rub the grill with oil or a non-stick spray, and pre-heat it to medium-high.
2. Place the fish flesh side down on the grill. For one-inch piece, cook for 7 minutes and then flip and finish skin side down for an additional 3 minutes. (You will know it is done when it can be easily pulled apart by a fork.)
3. Place the tortillas on the grill for no more than 30 seconds. Finish by dividing the fish into several portions and then place them into the tortillas.
4. Serve and enjoy.
