## The Best Bars in NYC by Neighborhood: Where to Drink in the City Now

Want to go bar-hopping in New York without stepping foot in the subway or hailing a cab? Do as New Yorkers (and Brooklynites) do and plan a night out in one of these cool neighborhoods, where there are so many great bars, you can stumble from one to the next. Cheers!

Though Midtown is full of Irish pubs and dive bars that cater to the after-work crowd spilling out from the neighborhood's high-rises, there are a handful of top-notch cocktail bars worth seeking out. One of the most beautiful and unique bars in the whole city happens to be hidden away in the basement of Grand Central Terminal. **The Campbell**—originally the office of Gilded Age tycoon John W. Campbell—still has original stained-glass windows, painted ceilings, and a massive fireplace.
