The Campbell

Hidden in the corner of the Grand Central Terminal, this New York speakeasy is the former office and jazz lounge of the financier William Campbell.

The legendary space for jazz lovers has been renovated by Ingrao Inc and Gerber Group in three sections.

The Campbell bar has evocative interiors decorated with bronze details, a monumental marble fireplace, hand-painted ceilings. The

Campbell Palm Court combines rattan bar stools, palm trees and the view of the terminal at Grand Central.

At The Campbell Terrace you can have a drink under the covered veranda looking at the city buzz.
