EXPERIENTIAL COCKTAILS

Welcome. We would love to make you a drink.

THE WATER OF LIFE

Welcome to Botanist, here we cherish nature and the bounty it provides. For centuries, science and nature have been deeply connected through alchemy, discovery, and experimentation. We invite you to join us on this journey as we explore one of the most essential elements of botany: water. Eau de Vie, the water of life.

Crafted in our Cocktail Lab, Creative Beverage Director Grant Sceney and Executive Chef Hector Laguna have designed a multi-sensory experience of flavour, technique, and storytelling. Each cocktail is paired with a curated bite that enhances and evolves the journey with every sip and taste. While each element is complete on its own, together they create a multi-dimensional experience that lingers long after the last sip. Allow the flavours to unfold, transforming your senses in unexpected ways.
